The Alborz Ceramic also produces Rozental, a beautiful and magnificent ceramic. Its diverse designs enable it to produce a wide range of decorative models with a unique impression.

One of the most creative and attractive goods is Rozental. Each one appears to be a painting or a piece of art.

Rozental Ceramic 30X30 cm is suitable for floors and walls in the sanitary parts of the building. Beautiful and creative styles can be created by combining them in harmony with the cream background color.

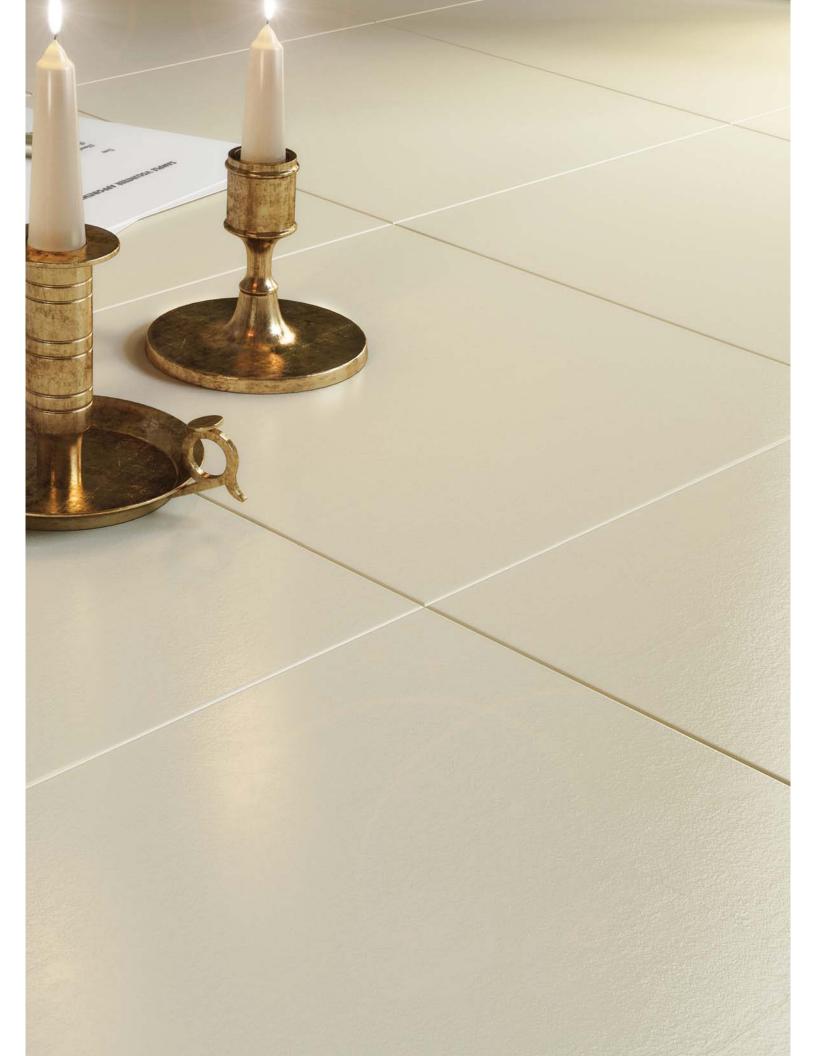

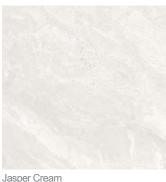

Jasper Brown

Another Alborz Ceramic product is Jasper Ceramic 30X30 cm, which comes in brown and cream colors.

Jasper is a proper product for covering walls and floors and is used in spaces such as kitchens, bathrooms, and toilets.

The Jasper design is inspired by mountain rocks and conveys a sense of nature in the environment. The combination of Jasper, a valuable natural stone, with simple ceramic generates beautiful designs.

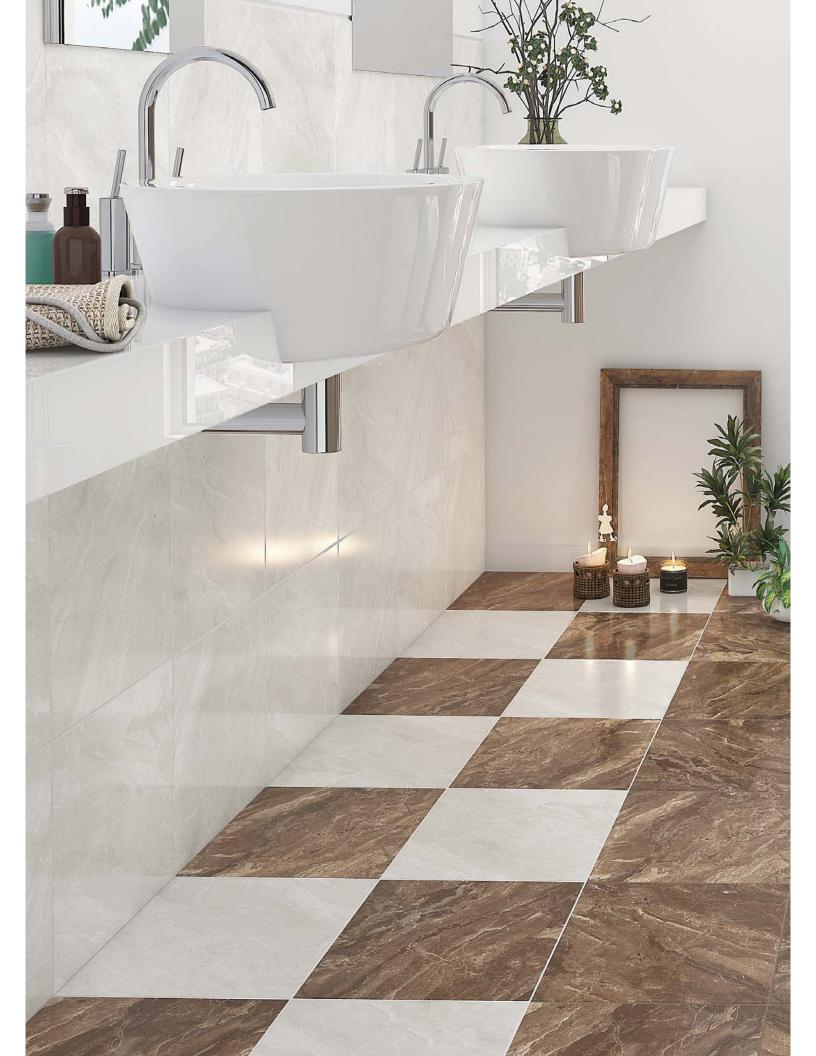

The patterns of Zino Ceramic model, in addition to the color combination used in it, at first glance are reminiscent of classic designs that remained from the glorious periods of the ancient. In the design of this product, traces of originality and combination with modern taste can be clearly seen. Zino model, is produced in 30X30 cm, is a suitable option for use in both modern and avant garde designs, as well as for spaces with classic decoration and design.

Almond Cream

Tiffani

When geometric shapes such as squares and rhombuses are colored with artistic taste put together, the result is always beautiful. The same combination has been used to design the Tiffani Ceramic model, which is a colorful and vivid product which its features make the space spectacular and markable wherever it be used.

Some ceramic models are designed like modern artworks, with simple colors and minimal patterns and lines that give the overall look of the product with an image inevitably will attract attention.

Calacatta Ceramic model with a size of 30X30 cm, which is one of the newest Alborz Ceramic products, is similar to a painting by a modernist artist in terms of design and color which by freely touching the brush and juxtaposition of these curvature lines has created a thought-provoking picture.

Calacatta Ceramic model by its color and size, could be a spectacular and extremely stylish option for use on the floor. The white faces of this model with its black folds and cracks fascinate every viewer.

Snowy, "F" of Flooring, and "A" of Anti slip glazed types. The third column shown by (C) indicates whether or not any changes are made on the surface of each type of tiles.

In case there is an extra cut (curve) on the surface of tiles, it has been tried to show the type of the cut by a capital English letter which is similar to it. For example, letter "N" indicates an extra cut from one corner to the other, so it can be divided into two triangle pieces. Letter "X" indicates a double extra cut from each corner to the other ones, so a tile can be divided into four triangle pieces. Letter "H" indicates a straight left to right cut on the center of tile, so it can be divided into two pieces.

If there is no trace of any kind of cuts or curves on the surface, it is shown as "A".

The fourth and fifth columns are shown by (D) which are related to the type of design or effect made on the mould to make it different. It can be simple or rustic type and is shown by a double digit from 01 to 99.

Number 01 represents mould with no changes.Matt or glossy glazes with plain surface are classified into two groups. The first group with matt glaze is

introduced as Accord and the second group with glossy glaze as Harmony.

The range of colors applied on Accord and Har

mony exceed 45 based colors. Number 02 represents moulds with rough curves on the surface and is known as Rocky. Like Accord and Harmony,

Number 05 is named Rush due to its resemblance to a kind of wood with the same name. It can be presented both with matt or glossy glaze in 45 colors. Number 06 is introduced as Epigraph. It is a kind of rustic type and available in two colors.

Number 07 is named Mani.

Number 08 presented to the market as Wave. There are six printed colors of this type available.

Number 09 is named Atlasi. This type is the newly irregular type with non-straight angles.

As you see, It is possible to represent almost 100 different types of mould with this category. The coming new designs can be introduced from 10 to 99.

The sixth and seventh columns are related to the printing type applied on the surface of tiles.

If a no. shows 00, it means there is no printing applied on the top of the tile. In case, it is shown as 01 to 99, it means there is a trace of a kind of printing format on the top of tile. By now, 01 is applied on Mountain, Arian, and Epigraph.

The eighth, ninth and tenth columns of this system shown by letter (F) are taken to introduce the colors

It consists of three letters of abbreviated name of colors. These colors based on their place on Alborz spectrum colors are shown by WHT as group of white colors, TAN as group of Bronze colors, PNK as group of Pink colors, BRN as group of Brown colors, RED, ORG as the group of Orange&Red colors, YLW as the group of Yellow colors, GRN as the
